One.

Please select ONE of the following that best describes the capacity you are completing the questionnaire in.

You must provide an answer to this question.

As an individual

As a business

As part of a group/organisation

Rather not say

Two.

Please enter the name of the town only, where you currently live or the business/group you are responding on behalf of is based.

You must provide an answer to this question.

Three.

Please select ONE of the following that best describes your opinion of the proposed **restrictions on all motor vehicles and horse carriage drivers** on the BOAT in Lockinge, Ardington & West Hendred.

You must provide an answer to this question.

The improvements to the Icknield Way will provide a new cycle commuting route to Wantage and Grove from the Harwell Campus as well as a community ammenity . Both Wantage, Grove and the Campus are growing and the route is required to provide a direct cycle route as an alternative to car use and cycles using the A417.

Motor vehicles and horse drawn carriages will damage the type of surface proposed for the route. This will result in increased maintenance costs and / or cyclist not using the route, which will defeat the reason for upgrading the route and fail to meet the County Council's policy of increasing transport choices and reducing the reliance on motorised transport.

Ginge brook and it's approaches have been damaged by 4x4 use and this has made the surface hazardous for cyclists, walkers and horse riders.

Four.

Please select ONE of the following that best describes your opinion of the proposed **restrictions on all motor vehicles** on the BOAT in West Hendred & Restricted Byway in East Hendred.

You must provide an answer to this question.

As above 4x4 and moto-cross use causes the surface to break up and will not be a surface that will attract cyclists to switch and try cycle commuting to the Harwell Campus. This is an important cycle route connecting Wantage & Grove to the Harwell Campus and beyond, an all season surface is needed with the confidence that cyclists, walkers and horse riders can use it safely with out being intimidated by motorised traffic.

Five.

Are you happy to be contacted via the email address you have supplied to be kept informed about this consultation ?

(view the County Councils [privacy notice](#) to understand how and why information about you will be used by Oxfordshire County Council)

You must provide an answer to this question.

- Yes
- No
